

# PRND MSEL Planning Meeting Minutes March 1, 2017

**Date and Location.** on March 1, 2017, in preparation for the upcoming Vigilant Guardian exercise series, the Alameda County Sherriff's Office hosted a Master Scenario Event List (MSEL) planning meeting at their Emergency Operations Center located at 4985 Broder Blvd, Dublin, CA. for the Preventive Radiological Nuclear Detection (PRND) portion of the exercise

**Participants.** Please see the attendee list included at the end of these minutes.

**Purpose.** The purpose of the meeting was to review the Draft PRND MSEL

## Overview of Activities

**General.** This exercise series will include multiple training lead-up sessions, three tabletop exercises, and a culminating multi-day full-scale exercise. The locations of the exercises are still to be finalized. All other planning meetings for this exercise series, except for the next planning meeting—the review and modification of the RDD Consequence MSEL—will tentatively take place at 4985 Broder Blvd, Dublin, CA.

The planning team selected the following dates for the training and exercise events. The dates and corresponding events highlighted in yellow denote changes from the last planning meeting.

## Exercise Design

### Exercise Objectives

The following objectives will drive development and conduct of this exercise series:

1. Exercise and evaluate the ability of the Northern California Regional Intelligence Center and its fusion center partners to operate as focal points for the receipt, analysis, gathering, and sharing of RDD threat-related information between federal; state, local, and private sector partners.
2. Exercise and evaluate the California Highway Patrol PRND Commercial Vehicle Inspection CONOPS and SOPS: Practice the roles and responsibilities associated with the PRND commercial vehicle inspection mission.
3. Exercise and evaluate the Bay Area PRND CONOPS and SOP's: Practice the roles and responsibilities associated with the land-based Steady State and Enhanced Steady State missions.
4. Exercise and evaluate the San Francisco Bay Maritime PRND CONOPS and SOP's: Practice the roles and responsibilities associated with the maritime Steady State and Enhanced Steady State missions.
5. Exercise and evaluate the Bay Area ability to perform aerial radiation detection in response to an RDD threat and contamination mapping following a detonation: Provide a coordinated aerial response under FEMA CONOPS using detection resources from multiple federal, state and local fixed and rotary wing aircraft.
6. Exercise and evaluate the process of notifying FBI Special Agent Bomb Technicians (SABTs) when circumstances require.
7. Exercise and evaluate the ability of Bay Area first responders to respond to a radiation emergency following the detonation of a RDD.

8. Exercise and evaluate the ability of CA Army National Guard Civil Support Team (CST) to support PRND and consequence management efforts of local first responders.
9. Exercise and evaluate the ability of a FEMA Urban Search & Rescue Task Force to support local first responders in response to an "Immediate Need" request through Cal-OES.
10. Exercise and evaluate the ability of CA Army National Guard Homeland Response Force (HRF) to support search/extraction and decontamination needs of local first responders
11. Exercise and evaluate the ability of DOE, Radiation Assistance Team (RAP) to support the needs of first responders
12. Exercise and evaluate the function of the DOE Radiation Operations Support Specialist (ROSS) position in the local emergency operations center (EOC)
13. Exercise and evaluate the ability of Bay Area hospitals to receive and treat radioactively contaminated victims.
14. Exercise and evaluate the ability of the Bay Area to establish and maintain a unified and coordinate operational structure that appropriately integrates all critical stakeholders and supports execution of core capabilities.
15. Practice and evaluate the use of a common operating picture for PRND and in response to the threat of an RDD and response to a detonation.
16. Exercise and evaluate the ability of the Bay Area to conduct forensic analysis and attribute terrorist acts to their source.
17. Provide an opportunity to evaluate new and emerging technologies.
18. Exercise and evaluate the ability of the Bay Area to establish and maintain a unified and coordinate operational structure that appropriately integrates all critical stakeholders and supports execution of core capabilities.
19. Practice and evaluate the use of a common operating picture for PRND and in response to the threat of an RDD and response to a detonation.
20. Exercise and evaluate the ability of the Bay Area to conduct forensic analysis and attribute terrorist acts to their source.
21. Provide an opportunity to evaluate new and emerging technologies.
